Fresh Groceries are going off at Marris' hot cakes. He sells cheap for cash.

Mrs. Mary Furman advertises new Millinery goods in another column of this paper.

New Goods at C. C. Marr's on Main Street. Cheaper dry-goods and groceries have not been brought to this market this fall.

It would seem to us that the Radical candidate for Supreme Judge in this State, was defeated; if he is not, we sincerely think he should have been.

J. J. Brown is still startling the citizens of this vicinity by selling goods at such low prices. Everybody is going there.

David Lowenberg is making up and turning our splendid Fall coats, and winter over-coats. He is prepared to accommodate all his old and new customers upon short notice.

We go to press too early in the week to give scarcely any election news. In our next paper will be found the official vote of this County, as well as the announcement of the probable result of the State; and if possible, the final result, as confidently but not officially, stated.

None but Perfectly Correctness are allowed to be seen from the manufacturers of Fairbanks Standard Scale. This principle scrupulously observed has given these instruments the world-wide celebrity, and enabled them to triumph over all others in amount of sales and at the Great Paris Exposition, where they received the highest premium.

On Monday evening last a Democratic meeting was held in the Court House, Capt. Brookway and Col. Freeze were the speakers. The meeting was well attended. The Brass Band was present and executed some of their choice pieces of music.

The Democracy of Greenwood and adjoining Townships held a meeting, at Rohrsburg on Monday last, which was addressed by Hon. C. R. Buckley and Col. John G. Freeze. There is no misuderstanding the Democracy of Greenwood; they seldom, if ever, fail to do their whole duty.

HISTOTTER'S BITTERS

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for Coughs, Cold Bronchitis, Croup, Whooping Cough, Asthma, diseases of the Throat, Chest, and Lungs, as well as that most dreaded of all diseases, Consumption.

Consumption, which high medical authority has pronounced to be a curse it is, those who have used this remedy know its value; those who have not, have but to make a single trial to be satisfied that of all others it is the remedy.

The Rev. Jacob Seckler,

well known and much respected among the German population of this country, writes as follows:

Hanover, Pa., Feb. 16, 1859.

Messrs. S. W. Fowle & Son, Boston.

Dear Sirs.—Having realized in my family important benefits from the use of your valuable preparation—Wistar's Balsam of Wild Cherry—it affords me pleasure to recommend it to the public. Some eight years ago, one of my daughters seemed to be in decline, and little hope of her recovery was entertained. I then procured a bottle of your excellent "Balsam," and before she had taken the whole of it there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have been gratified by it. I would, however, caution the public against impetuosity, because there is a good deal of Over-Coating, fine Cloth, and Cassimores; buy yourself a suit and have your measure taken and you will certainly get fit that will satisfy you in every way.

Prof. W. B. HARRISON will give several entertainments in Snyder's Hall, commencing on Wednesday evening. The entertainment will consist of sentimental and comic songs, ballads and violin solos, humorous lectures, &c., &c. He gave an exhibition in this place on Tuesday and Wednesday evening of last week, assisted by the talented Pianist and vocalist. They had a very fine audience, and everyone who saw the performance was well satisfied, and will go again. Admission 25 cents for adults and 10 cents for children. Go and see the performance.

UNDIGNIFIED ACCIDENT AND DEATH.

Monday afternoon, Isaac M. Scott met with a fatal and frightful death by being drawn the rolls at the Burnside Colliery. He had nothing commenced work as late and not being familiar with the place, having between the upper and lower end of his bed, against a lever which caused him to stagger backward, and stop in the chute, from which he was drawn into the rolls, and his body. He was immediately cut, but lived only a few minutes after via Hospital.
